Artists in Residence Equipment Resources

Use of the following equipment requires prior comprehensive training and safety knowledge. Staff is available to provide basic technical support and troubleshooting. For more information regarding equipment, training and safety, please contact Carrell Courtright (239.707.1251) prior to making plans to use the equipment.

A signup sheet will be made available if more than one resident plans on using a particular piece of Equipment or Computer Workstation.

Residents will need their own hard drives, memory cards and or flash drives.

If during your residency, if you would like to try something new or learn a new process, you may schedule time with a staff member in 1 or 2 hour blocks of time based on availability.

If you need to hire a technician with specific expertise, or a personal assistant to work for you for a more extensive period of time, we can help to facilitate that arrangement; however, any fees incurred will be your responsibility.

Fabrication
- Panel saw with interchangeable blades (wood, plastic & metal)
- Table saw with interchangeable blades (wood, plastic & metal)
- Metal Band saw with interchangeable blades (wood, plastic & metal)
- Horizontal band saw (metal)
- Stationary Belt Sander (wood or metal)
